PROJECTS

Online Voting System

>Our Project Has 3 Modules That Is: 1.Admin 2.Voter(User) 3.Candidate Admin Can Handle All The Voter And Candidates Crendential Which They Are Feed Allow Admin, Employee, And Principal To Login Using Their User Name And Password After Sucessfully Vote By The User They Will Recive Message For Their Email That Is Your Vote Is Sucessfully Done ! And Also They Get Message Voting Lines On And Off To Their Login Devices. The Main Moto Of This Project Is To Help People And To Over Come From Few Exixting Problems From Current Voting System Ie: Waiting For Long Time In The Perticular Vote Poling Station To Vote Perticular Candidate In That Time Thay May Happen Few Quarrel And To Help Handicaps And Old Age People To Easy Vote Their Fav Candidates Few Out Of State And Country Workers Cant Reach To The Located Perticular Vote Poling Area, In Order To Over Come From These Problem Me And My Team Implemented This Project.v

Software's Used:
